

Calbright Academic Project

Student Onboarding

Overview

Enhance your skills through an academic project.

- Build your **professional network**
- **Drive impact** for a local industry partner
- Receive **direct feedback** and an **employer endorsement** to enhance your professional portfolio.

Riipen Mission:

To eliminate
underemployment.

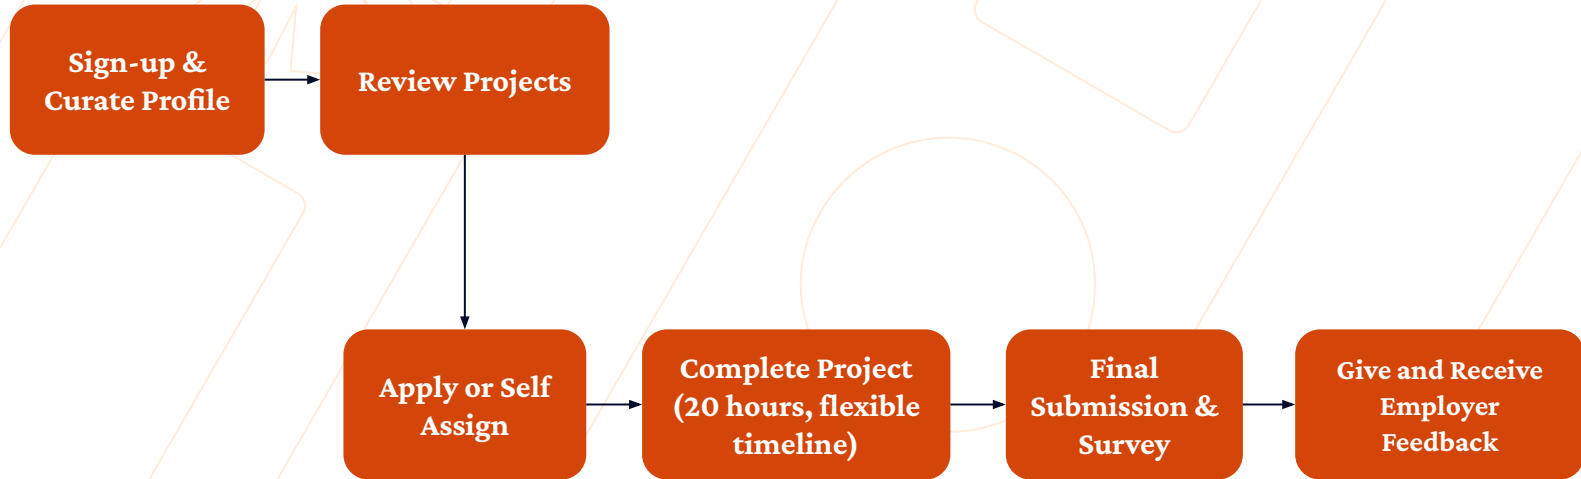

Riipen is a leading work-integrated learning platform connecting higher education institutions with thousands of employers. We facilitate equitable work-integrated learning experiences that drive better learner engagement and employability outcomes.

Calbright x Riipen - How it works

- 20-hour remote projects
- Projects reviewed & aligned to your Calbright course curriculum
- Participants apply to projects they are interested in (only 1)
- Projects are completed on a flexible schedule, but must be completed before the end date mentioned on the experience page
- Support from Riipen

ICT Ignite Cyber

Issued by ICT Ignite Cyber (November 12th – December 6th)

Awarded for successful completion of an ICT Ignite Cyber employer project.

Community Builder

Issued by Riipen

The Community Builder achievement is awarded to learners who provided feedback on a project, helping to create a better experiential learning ecosystem for all participants.

Work-Integrated Learner

Issued by Riipen

The Work-Integrated Learner achievement is awarded to learners who applied their skills in a real-world context.

As you complete your project skills, digital badges, and employer feedback will be displayed.

INDIVIDUAL ENDORSEMENT

Incident response Cyber security Incident reporting Vulnerability

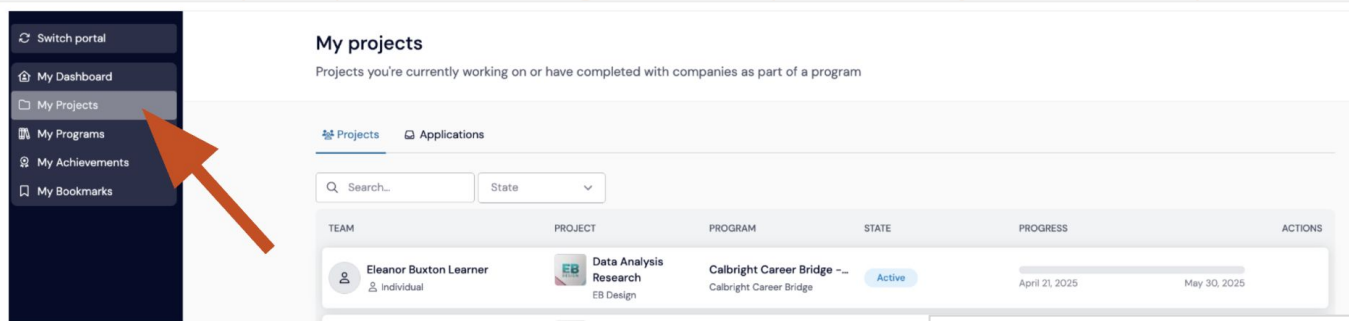

Shivani contributed greatly to our assessment and prioritization of security vulnerabilities. She was able to clearly articulate the steps she took for penetration testing and provided a lot of valuable insights.

TEAM FEEDBACK

It was a pleasure for our organization to collaborate on this CyberSecurity project! The team completed important work, helping us to improve our organizational CyberSecurity awareness, develop policies to continuously improve this in the future, and provided technical...

Reviewing Your Available Projects

The screenshot shows the 'My projects' dashboard. On the left is a dark sidebar with navigation links: 'Switch portal', 'My Dashboard', 'My Projects' (highlighted with an orange arrow), 'My Programs', 'My Achievements', and 'My Bookmarks'. The main content area is titled 'My projects' and includes a subtitle 'Projects you're currently working on or have completed with companies as part of a program'. Below this are tabs for 'Projects' and 'Applications'. A search bar and a 'State' dropdown are present. A table lists projects with columns: TEAM, PROJECT, PROGRAM, STATE, PROGRESS, and ACTIONS. The first project is 'Data Analysis Research' by 'Eleanor Buxton Learner' (EB Design), which is 'Active' and has a progress bar from April 21, 2025, to May 30, 2025.

Analytics

Api

I am elated to endorse Dallas with her skills in data visualizations, data analysis, SQL database, Python, and React front end. Her commitment to deliver high quality software with her background in healthcare gave us the most comprehensive analysis we've ever seen. She showcased a remarkable ability to architect robust solutions that exceeded expectations in terms of functionality and performance. I am confident that her technical expertise and dedication will make her an invaluable asset to any team or organization seeking a skilled developer for analytics software!

TEAM FEEDBACK

We gained an exceptional amount of insight from Dallas with her background in healthcare, data visualizations, Python, SQL database, and react front end! Perfect fit for the team. Dallas was able to pick up where the previous team left off and overcome some challenging discoveries of bugs and deficiencies in the code. We successfully re-engineered the data analytics for more comprehensive data analysis! Creating a work summary and transition package will allow us to continue with development more seamlessly. Our team is grateful to have had the opportunity to collaborate with Dallas!

Best Practices

Project Kickoff

- **Review** the project scope in detail and the company's work
- Review the listed skills, tools, and tech (remember this is a learning opportunity too!)
- **Message your employer**, introduce yourself, and share your relevant experience
- **Prepare** for the kick-off, meet and/or discuss any questions for the employer & share your availability
- **Arrange a kick-off call** to meet key people on the employer team and launch your collaboration

If you work as a team

- Assign a project lead to streamline communication and oversee progress
- Agree on the delegation of responsibilities and scheduled times to sync (but be flexible!)
- Stay organised by sharing updates and working files
- Support your teammates to deliver on the project as a group

Working with Employer Partners

- Keep communications professional, clear, and on the Riipen platform
- Set clear expectations and timelines and flag any roadblocks as soon as possible
- Be proactive and take ownership of your work (and the team's) progress
- Be adaptable and open to problem solving - you are working with a real employer running a dynamic business
- Be receptive to sharing and receiving feedback

Sharing your project experience

Include the experience on LinkedIn and your resume

- List as a “Project” or “Work-Based Learning”
- Summarize your contributions and the outcomes
- Highlight employer feedback as proof of performance

Share your Riipen profile

- Provide a snapshot of the project and the employer-verified skills

Reference your project in cover letters or in interviews

- Demonstrate your real-world experience
- Showcase technical and collaboration skills

[How to put an internship on your resume](#)

Leveraging this experience on LinkedIn

Connect with your employer partner on LinkedIn

Consider posting a reflection about the project

- Tag the employer, Riipen, your teammates, and Calbright College to maximize reach

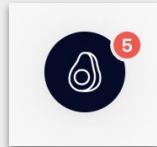

Share your feedback and digital badge achievement directly from Riipen to LinkedIn
